

WATERSHED Home Screening!

Are you at home with your kids and want meaningful educational opportunities for them to pursue?

We are glad to share the *WATERSHED* documentary executive produced and narrated by Robert Redford. A film that tells the story of the threats to the Colorado River basin, and solutions for the future of the American West. To watch the film, follow the link generously provided by The Redford Center:

WATERSHED questions for discussion and activities after the screening:

Describe in your own words what is the New Water Ethic proposed by the film *Watershed*.

Think of all the characters interviewed throughout the film. Which character do you feel made a great case for a New Water Ethic and how?

Do you think we need a New Water Ethic based on the evidence presented by the film *Watershed*? Why or why not?

As a family, brainstorm some ways in which you could incorporate into your lives a New Water Ethic that is specific to where you live and your lifestyle.

Share your New Water Ethic ideas or Homescreening related fotos with The Redford Center on <https://www.facebook.com/theredfordcenter>), Instagram (<https://www.instagram.com/theredfordcenter/>), or Twitter(<https://twitter.com/redfordcenter>).
